

Water and Wastewater Treatment Equipment and Services

Custom-Engineered Systems to Meet Individual Treatment Requirements

System Categories

Filters Sediment/turbidity, organics, bacteria/pyrogens, iron, manganese, dissolved gases, color

Softeners Hardness removal, iron, manganese removal

Reverse Osmosis Dissolved solids removal for ultrapure, boiler feed, rinse water, pretreatment for polishing demineralizers; emergency supply via trailer-mounted RO machines

**Deionization
Demineralization** Ultra-pure and process water, boiler feed, Service DI using exchange tanks, Automatic DI, Continuous DI (no regeneration required), Temporary and Emergency supply via trailer-mounted systems regenerated off-site

Parts & Expendables Replacement parts for most brands; resin, carbon, filter cartridges, bag filters

Wastewater Treatment Heavy metal removal/recovery from plating, EDM and metal-working processes and cooling tower blow-down; Recycle/Recovery; Groundwater Remediation; BOD/COD, color removal; oil/grease

Chemical Feed Systems Polymer Feed, Chlorination, Dechlorination, Biocide, Individual Chemical Feed Pumps, ORP, pH control, etc.

Engineering Custom engineering, design and fabrication to meet your specific requirements

**Service and
Service Contracts** Master service technicians capable of servicing all brands; Service Contracts; Operational-Maintenance Contracts; Build-Own-Operate; routine and emergency service

Purchase Options Outright Purchase; Lease-to-Own; Own-Operate; Short and Long-Term Rental; Emergency, Temporary Systems

Real Solutions In Industrial
Water Purification Systems

Service Centers in Tennessee, North Carolina, and South Carolina

www.WaterProfessionals.biz

Applications

Boiler Feed
Bottling
Cooling Tower
Disinfection
Ground Water
Remediation
Heavy Metals Removal
Laboratory
Parts Washing
Process Water
R&D
Recycle/Re-use
USP/WFI/ASTM
Wastewater
Zero Discharge

Manufacturers

Amiad
Aquafine
Aquamatic
Culligan
DeSal
FilmTec
Fleck
GE/Osmotics
Goulds
Grundfos
Harmsco
Liqui-Cel
LMI
ResinTech
Structural
Sybron
